

HAT MEASUREMENTS

- You'll need approximately 2 inches of negative ease for your hat's circumference. **Translation:** You're finished hat should be 2 - 4 inches smaller (negative ease) than you're actual head circumference. I usually knit mine 2 inches smaller.
- Obviously, not everyone is average, these charts were just designed to give you a rough idea for project planning purposes.
- These yardages are rough estimates, yarn usage changes depending on stitch pattern.
- These yardages were estimated using a gauge of 5sts/inch and a stockinette stitch.

Age	Head Circumference	Hat Height	Yardage
Preemie (1-2 lbs)	9"	3.5"	50-110
Preemie (3-4 lbs)	11"	4"	50-110
Preemie (4-5 lbs)	12"	4.5"	50-110
Preemie (5.5-6 lbs)	13"	5"	50-110
Newborn	14"	6"	100-150
Baby – 3 to 6 months	17"	7"	100-150
Baby 6 to 12 months	18"	7.5"	100-150
Toddler – preschooler (12 months – 3 years)	19"	8"	100-150
Child (3 – 10 years)	20"	8.5"	100-180
Pre-teens and Teens	21"	10"	100-180
Adult Woman	22.5"	11"	120-200
Adult Man	22.5"-24"	11.5"	200-255
