

HOW TO DECREASE IN TUNISIAN SIMPLE STITCH CROCHET

SKIPPING A STITCH Method: to decrease, skip the Vertical Bar you are supposed to be working in and proceed working directly under the next, pulling up a loop.

2. TOGETHER Method: to decrease, insert the hook under 2 Vertical Bars together (the one you are supposed to be working in and the one right after it), yarn over and pull up a loop. Then proceed working the rest of the stitches as usual.
