Tunisian Information

In different parts of the world and in different times, Tunisian crochet has been known by many names. You may know it as Afghan crochet, tricot crochet, shepherd's knitting, hook knitting or railroad knitting. Whatever its name, Tunisian crochet is a type of crochet in which each row is made up of two parts—placing loops on the hook, and working them off. The work is not turned, so one side of work, usually the front, is always facing you. Easy Tunisian is Tunisian crochet with large-size hooks combined with inspiring designs to make your crochet creations fun, fast and fabulous.
BASIC STITCHES
Variations of Tunisian stitches are created depending on three things: where the hook is inserted to pull up loops, what is done after a loop is pulled up, and how loops are worked off.

Tips for Beautiful Easy Tunisian Stitching

Beginning and Ending
Beginning chain, last row and borders are worked with hook one size smaller than hook used for remainder of design. If these important edge stitches are worked with the larger size hook, edges are often loose and rippled. Using the smaller hook allows you to achieve straight, square Easy Tunisian edges.

Taming the Curl
Tunisian stitch pieces tend to curl, but there are several things you can do to lessen the curl. When working first row, pick up loops by inserting hook through the **back bar** of each beginning chain *(see illustration L).*

To further counteract the curl, before assembling afghan parts or parts of a sweater, steam lightly. Lay piece on towel or other padded surface and steam by holding iron near stitches and allowing steam to penetrate. Do not allow iron to touch stitches. Flatten and smooth with fingers if needed. Allow piece to dry in this position. Curling is also lessened by working one or two rows of Tunisian Purl Stitch before beginning rows of Tunisian Simple Stitch. Adding a border is also effective.

Right Edge
If the stitches along right edge are too loose as you work; use this method to make a flawless, firm right edge.

A. For rows of Tunisian Simple Stitch, purl stitch, knit stitch and other similar stitches:

At beginning of row, place the single lp on a large safety pin.

Pull up lps as indicated in pattern for remainder of row *(see illustration M).*

Work off lps as indicated in pattern until you have one lp on hook. Remove hook from lp, place safety-pinned lp on hook. Place dropped lp on hook *(see illustration N)*

Remove pin. Work off these lps as indicated in pattern.

To **begin next row,** place remaining lp on safety pin. Pull up lp in second vertical bar *(see illustration O).* Complete row.
Work remaining rows in same manner, beginning each row by placing lp on hook onto safety pin.

B. For rows of Double Tunisian Stitch, Lace Stitch and other similar stitches, complete the action indicated in pattern before beginning next stitch *(usually ch 1).* Place safety pin on resulting loop.❑❑
