

Two-Color Fisherman's Rib

Getting Started.

A video tutorial on this stitch can be found here: <https://youtu.be/zPaOAUAdITc>

You can use any yarn and needles for this stitch. If you're unsure about the needle size to use, most yarns give a suggested needle size on the yarn label.

Directions, Flat.

In these instructions, I'm calling the two colors "light" and "dark".

Using dark color, cast-on an odd number, then knit across those stitches. Turn work.

Row 1A, light color: Knit 1, *purl 1 below, knit 1*, repeat between *s to end of row. Do not turn work.

Row 1B, dark color: Knit 1, *purl 1, knit 1 below*, repeat between *s to last 2 stitches, purl 1, knit 1. Turn work.

Row 2A, light color: Knit 1, *knit 1 below, purl 1*, repeat between *s to last two stitches, knit 1 below, knit 1. Do not turn work.

Row 2B, dark color: Knit 1, *knit 1, purl 1 below*, repeat between *s to last 2 stitches, knit 2. Turn work.

Repeat these 4 rows to desired length. Bind-off while working Row 1B, so that the cast-on and bind-off rows are the same color.

Directions, In-the-Round.

Cast-on an even number of stitches, using the color of your choice. Alternate colors every round.

Round 1: *Knit 1, knit 1 into stitch below*, repeat between *s to end of round.

Round 2: *Purl 1 into stitch below, knit 1*, repeat between *s to end of round.
